

Track to the Future

- Career Skills Programme
- Project Management
- Stakeholder Engagement
- Communication & Presentation

Delivered in partnership with the Rail Safety & Standards Board (RSSB) and their partners nationwide, this is a new and exciting opportunity for your students to gain a unique insight into the Rail Industry and wide-ranging career opportunities via a bespoke four-part programme!

The Track to the Future career skills programme is aligned with the Skills Builder Framework and meets Gatsby Benchmarks 2, 4, 5 & 6.

- Engage in highly interactive activities
- Learn how to manage a project from ignition, applying basic project management principles and skills through to completion
- Apply current topics and real-life sustainability objectives to your project
- Present your project to local industry professionals
- Explore exciting and tangible career opportunities in the rail sector

- PRACTICAL INFORMATION:**
- Facilitated by The Talent Foundry
 - Workshops supported by volunteers from our RSSB & supply chain partners
 - 4 x 3-hour workshops (two in school, two at an industry partner site), with times to suit your school calendar
 - 20 students per cohort (KS5, min 50% female)
 - Complimentary rail travel to site-visit locations
 - Certificate upon completion
 - Opportunity for students to present to RSSB Partners in London!
